

ARUN GATLA

FULL STACK WEB DEVELOPER

PHONE | (+91) 9494611520
EMAIL | gatlaarun111@gmail.com
LOCATION | Hyderabad, INDIA
EXPERIENCE | 3 Years 2 Months

Key Skills

- Full Stack Application Development
- Javascript
- Nextjs
- Angular
- Nodejs Server
- Nodejs Applications
- Linux
- AWS
- React.Js
- GIT
- Python

Certification

- AWS Certified Cloud Practitioner
Valid upto November 2025

Languages

- English
- Hindi
- Telugu

Profile Summary

Experienced Full Stack Developer with 3 years of expertise in building scalable web applications using modern frameworks and technologies. Proficient in front-end development with Angular and React.js, creating responsive user interfaces and managing state effectively with NgRx and Redux. Skilled in back-end development with Node.js and Express.js, implementing RESTful APIs and secure authentication systems using JWT and LDAP.

Capable of optimizing application performance through server-side rendering (SSR) and automating workflows using Redis and cron jobs. Successfully deployed and managed multiple full-stack applications on Linux servers with distinct domains.

Known for problem-solving skills, collaboration, and delivering high-quality, production-ready applications. Continuously learning and leveraging modern tools like Git, Bitbucket, Jasmine, and Protractor to meet business goals efficiently.

Work Experience

Full Stack Web Developer

Accenture

10/2021 - Present

Full Stack Engineer

Accenture | [Oct, 2021] — Present

Angular Development:

Built and optimized scalable web applications using Angular frameworks, integrating state management with NgRx.

Enhanced application performance with Angular Universal for server-side rendering (SSR).

Designed and implemented complex form validation using Angular's Reactive Forms and FormControl.

Worked on seamless authentication and authorization mechanisms using JWT and LDAP.

- <https://www.linkedin.com/in/arungatla/>

Developed modules for secure routing and authentication configuration for non-main components.

React.js Development:

Delivered high-quality, responsive web interfaces using React.js.

Implemented Redux for application-wide state management and optimized component rendering. Collaborated with the design team to ensure pixel-perfect UIs.

Automated email systems with Redis and cron jobs, ensuring timely email delivery for business processes. Utilized Git and Bitbucket for version control, following best practices for branching and merging workflows.

Key Achievements:

Reduced page load times by 30% by optimizing front-end assets and implementing server-side rendering.

Spearheaded the integration of microservices into existing applications, improving scalability and maintainability.

Played a critical role in hosting multiple production-ready Node.js, React and Angular applications on a single server with distinct domains.

Internship

eAbyas Info Solutions, 6 Months

Key Responsibilities and Accomplishments:

Developed responsive and interactive web interfaces using HTML, CSS, and JavaScript, ensuring seamless user experiences.

Built and maintained backend functionality using PHP, integrating with MySQL databases for data management.

Collaborated with team members to design and implement full-stack features for web applications.

Gained foundational experience in web development, enhancing skills in front-end and back-end integration.

Education

B.Tech/B.E. - Computers
